# framei and framev Alignment Testing

Debug Lecture
## Testing framei and framev with alignment options

Learning goals

- Test framei and framev alignment
- Test font size options
- Verify option combinations

FRAMEI: DEFAULT (NO OPTIONS)

- Default framei with no options
- Center alignment (default)
- Normal font size (default)
- Medium spacing (default)

FRAMEI: TOP ALIGNMENT

- Uses [align=top]
- Content at top of frame
- Automatic itemize wrapper

FRAMEI: BOTTOM ALIGNMENT

- Uses [align=bottom]
- Content at bottom of frame

FRAMEI: SMALL FONT + TOP

- Combines [fs=small,align=top]
- Small font size
- Top alignment

FRAMEI: ALL OPTIONS

- Uses [fs=tiny,sep=S,align=bottom]
- Tiny font
- Small spacing
- Bottom alignment

FRAMEV: DEFAULT (NO OPTIONS)
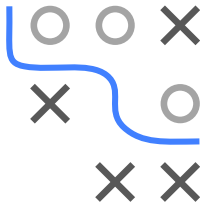

This is framev with no options.
Content is centered (default) with normal font size.
No automatic itemize wrapper.

FRAMEV: TOP ALIGNMENT

This uses [align=top].
Content should be at top of frame.

FRAMEV: BOTTOM ALIGNMENT

Content at bottom with [align=bottom].

FRAMEV: SMALL FONT + TOP

This combines [fs=small,align=top].
Small font size at top of frame.

FRAMEV: TINY FONT + BOTTOM

Uses `[fs=tiny,align=bottom]`.
Tiny font at bottom of frame.

FRAMEV: SHORTHAND ALIGNMENT

Uses shorthand [align=t] (same as align=top).
Also supports c for center and b for bottom.
